**About the A.S.A.P.  
and why become a member**

A.S.A.P. is located in RAIZEUX (Yvelines).

A.S.A.P. is the only charity protecting parrots in France. A.S.A.P. exists thanks to its members, donations, and volunteers.

A.S.A.P. is a non-profit organisation and the only parrot sanctuary in France.

A.S.A.P. also:

- Trains future veterinarians,
- Advises on bird safety and health,
- Delivers presentations in schools,
- Participates in fairs to raise awareness on the unavoidable problems of animal mistreatment, pollution, deforestation, and biodiversity.

The sanctuary takes in parrots in great distress or seized for legal reasons, brought to us by relevant authorities (DSV, National Office of Hunting and Wildlife, customs, police, SAC PA, Bird Protection League).

It also takes in escaped birds and birds whose owners face health problems.

While parrots are for the most part protected, they are the object of a morbid and silent trade due to their financial value. They are captured and transported in humiliation. Half of the birds die on the spot and 30% do not survive the trip.

WWF International estimates that traffic in exotic animals currently represents **20 billion dollars**.

**OBJECTIVES:** Collection, sheltering, and safeguarding of parrots that are lost, abandoned by individuals, or seized by relevant authorities (such as animal protection societies, bird protection league, veterinarian services, police, National Office of Hunting and Wildlife, customs, etc.) and preservation of endangered species.

Information sharing and awareness raising in schools and with the general public.

**Possible donations or memberships:** 30€ or more made out to ASAP (pursuant to the 1901 law published in the *journal officiel*), tax deductible up to 66%.
